Day trip to Formentera

Formentera is home to pristine waters and white sands. It is a UNESCO World Heritage Site with rich marine biodiversity and containing the oldest living organism on the planet – the Posidonia Oceanica meadows. We will explore these waters by snorkelling in the best spots the island has to offer.

Beach hopping Jeep Journey

Enjoy the rural roads that take us through some of the most charming and unspoilt villages of the island. Olive, carob and almond trees rooted in bright red soil, ancient stone walls and cubic white houses dot the pine covered hills and dusty quiet roads. And, in the end, turquoise waters await glistening.

SOME OF OUR MEET THE SEA EXPERIENCES *Ibiza Trip*

With a choice of 14 experiences, you can be sure to find the perfect activity to add some thrills to your time in Ibiza. Here is just a teaser...

Competitive Sailing

In partnership with the Yacht Clubs of Es Nautic in Sant Antoni de Portmany and Club Náutico de Ibiza we provide a hands-on introduction to the world of competitive sailing. We sail from either the port of Ibiza or the port of San Antonio, depending on prevailing winds, onboard a cruising sailboat guided by a team leader expert in racing.

Hiking and Snorkelling

We want to share with you stunning hill top views, rich flora, pine-scented trails, rocks and red soil before enjoying a cool dip in a natural pool.
